HOSTED BY KARTIK TYAGI, MIELAD ZIAEE, ALEKHYA KONDRAGUNTA, & SRICHARAN PUSALA
JAN. 20TH AT 8 PM EST | [LINK](#)

ILC + ATC

The past few years, HOSA has partnered with National Geographic Learning to enhance your ILC experience with the National Geographic Learning Academic Testing Center.

Here's what you and your members need to know:

What is the Academic Testing Center?

The ATC offers fifteen different tests, allowing HOSA members to interpret and apply knowledge during each fifty-question multiple choice exam. The topics range from subjects you would learn in class, like anatomy and organic chemistry, to those practiced outside of the classroom, like career development and leadership.

Who is this opportunity open to?

You and you and you and everyone who attends ILC!

How do I register and what does it cost?

When you register for ILC, you are automatically given the opportunity to take one test for free! Each additional test costs \$20, and students are able to take up to 4 of these exams.
