

Louisiana HOSA

State Leadership Conference

Health Professions Expo

Louisiana HOSA: Future Health Professionals is part of International HOSA, a student organization whose purpose is to promote career opportunities in health care and to prepare students to successfully pursue a health career.

During the course of this conference, students (mostly high-school) will compete in health-related competitive events, workshops, and leadership activities. We will also expose students to several different health care careers, health topics, and schools where they may attend.

We are asking for organizations, schools, hospitals, and health professionals to help us provide a showcase that gives students an insight into becoming and working as a health professional, as well as technical schools and colleges with health related & medical curriculums, and health organizations in the community.

By participating in this Health Professions Expo, you will have the chance to share with over 300 high school students from around the state of Louisiana about your organization, school, or health career. Please feel free to share with other health organizations or professionals.

Cost of Expo Table:

One Table:	\$45.00
